

## Behavior Based Safety Training

PBBS is an interactive web-based training program that lets users experience the full spectrum of behavioral safety concepts and how to apply them in the workplace. AI, our 3D teacher and guide works with two virtual employees acting out situations related to lesson topics.

### Benefits:

- Teaches the basics of the behavior based safety process
- Easy to use and cost effective interactive web-based and intuitive learning environment
- Users can proceed at their own pace and can logout at any point and resume where they left off
- Eliminates the need for instructor led training and associated costs
- Quizzes assess user comprehension
- A certificate is provided upon successful completion of the program and exam

### Featured Lessons:

#### Introduction to Behavior Based Safety

*Covers the following:*

- › Origin of behavior based safety
- › Applicable steps in the process

#### The Basics of Human Behavior

*Covers the following:*
