

Incident Tracking System

Record, report and prevent future incidents and more...

- Document pertinent incident information
- Capture non-injury incidents and near-misses
- Determine if incident is OSHA reportable
- Create OSHA reports at the click of a button
- Improve workplace safety by identifying trends and weaknesses via links to the Guardian Safety Observation System
- Share best practices and incident information corporate wide

Site-Wise Guardian:

A system with over a decade of proven workplace experience.

Site-Wise Guardian Incident Tracking Allows You To:

- Document the who, what, where, and when an incident, non-injury, or near miss occurs
- Capture treatment information
- Report on lost work time due to injury
- Generate detailed OSHA reports by site
- Connect to HR Systems such as SAP
- Run reports by a site, region, or corporate level to share best practices and reduce workplace incidents
- Use the customizable Incident Dashboard to monitor your company's safety performance

Benefits and Key Differentiators:

- User friendly data entry process
- Allows end-user customization
- Customizable dashboard for safety performance monitoring
- Links incident information to behaviors, conditions, and/or barriers in the Guardian Safety Observation System
- Correlate incident and safety observation data to help improve workplace safety
