Site-Wise  
**GUARDIAN**<sup>®</sup>

## A comprehensive system allowing companies to gauge the effectiveness of their safety initiatives

Do you know the critical behavioral and environmental hazards of your facility?

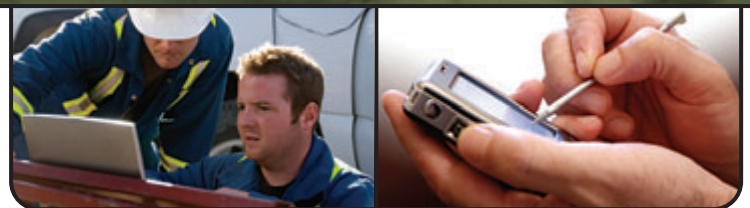

Do you need a customized behavior based safety management program?

Do you have an open path of safety communication between management and staff?

Do you need an action plan to reduce work place injuries?

**Are you doing all you can?**

### Site-Wise Guardian:

A system with 14 years of proven industrial and nuclear power plant experience.

### How Site-Wise Guardian Works:

- Creates custom checklists for discrete activities and areas based on targeted observations
- Customizes observation point inventories, barrier definitions, and categories
- Allows for data input via tablet PC or PDA in the field
- Identifies areas of concern and best practices for targeted training
- Provides detailed reports by site and rollup reports across sites
- Facilitates assignment and tracking of action items

### Benefits and Key Differentiators:

- Can be hosted by S&W Technologies or installed on client's network
- Easy to use system for both staff and management interaction
- Monitors and tracks the performance of your safety process
- Lowers the total number of human injuries
- Lowers costs associated with work place injuries
- Potential for reduced insurance premiums due to decreased safety incidents
- Provides a full circle safety management and training process

Experience this comprehensive system and gauge the effectiveness of your safety initiatives.
